Skills

Microsoft Entra & End Point Security ● ● ● ● ○
* User provisioning and license management
* Multi-Factor Authentication (MFA) enforcement
* Mail flow policy configuration
* Usage reporting and analytics
* ESET Protect Cloud and Trend Micro administration
* Teramind (DLP) configuration and monitoring
* Insider threat detection and data exfiltration prevention
* Zabbix Monitoring data centers and cloud infrastructure
* Cloudflare logs to detect and respond to security events

Vulnerability Management ● ● ● ● ●
*Performed vulnerability assessments and penetration testing (VAPT) for web applications, conducting internal and external scans using Nessus and Tenable.
* Configure and manage SIEM tools like SolarWinds & QRadar to monitor security events
*Tracked, analyzed, and coordinated remediation efforts with internal development teams to ensure timely closure of identified vulnerabilities.

Risk Management ● ● ● ● ○
* We've assessed and managed Risks and suggested recommendations for multiple projects.
* I meet with the Project Manager to understand what the Project is about. I then propose recommendations based on the identified Risks to mitigate them.
* I lead and manage various projects end-to-end within the organization.

Information Security Specialist ● ● ● ● ○
* Lead Audit activities across business projects to ensure   compliance with external and regulatory requirements.
* Conduct annual internal audits for all sites and record results in the SPM portal.
* Maintain and update security procedures to meet ISO 27001 and HITRUST standards in the healthcare sector.
* Work with business teams to ensure compliance and security controls are built into every project.

BCP & Data Leakage Prevention ● ● ● ● ○
*Developed and maintained Business Continuity (BCP) and Disaster Recovery (DR) plans for critical physical locations, updating records through the Help Desk ticketing system.
*Created contingency and emergency response plans to ensure rapid recovery and minimal operational disruption.
*Conducted tabletop exercises and maintained call trees to ensure effective communication during disaster scenarios.
*Designed emergency management and recovery plans aligned with client SLAs/MSAs, ensuring continuity of critical operations and governance.
*Managed user access privileges in Exchange servers, periodically reviewing and approving or revoking access to maintain system security.

Professional Experience

10/2023 – 11/2025
Chennai

Manager - IT Security

ERP Shipping Company Pvt Ltd

- Managed the Microsoft Entra and 365 admin center including user provisioning, license assignments, multi-factor authentication (MFA) enforcement, and mail flow policies. Monitored usage reports and implemented data loss prevention (DLP) and retention policies.
- Administered ESET Protect Cloud and Trend Micro Console to enforce endpoint protection across the enterprise. Configured real-time scanning, threat remediation workflows, and policy updates.
- Configured and monitored Teramind for insider threat detection, user behavior analytics (UBA), and data exfiltration prevention. Analyzed activity logs and generated actionable reports for HR and compliance teams.
- Collaborated with SOC teams and conducted internal audits to ensure compliance with regulatory standards (ISO 27001). Reviewed incident response logs, SIEM reports, and investigated anomalies.
- Zabbbix Monitoring solution used to track the performance, availability, and health of IT infrastructure, applications, and services.
- Cloudflare analyze traffic patterns and Security Logs Monitoring.
